VOLUME 4. MARYVILLE, MISSOURI, TUESDAY, APRIL 7, 1914. NO. 264.

A CLEAN-UP DAY

MARYVILLE RIGHT IN LINE OF ANNUAL CLEAN-UP.

START IT RIGHT NOW

Let Us See How Many Things We Can Do to Make This the Cleanest Town in the State.

While these cold April showers prevail and the grass is getting greener and greener and making us wish for the warm, brigh tsun, and incidentally the spade, the rake, and the hoe and some seeds, is a good time to study out how to make yards and gardens attractive and beautiful, and drive away everything that is unsightly, or is bad for health.

Nearly every paper published in Missouri these days has some plan up for the annual spring clean-up day, and Maryville will be right in line, of course, to do her part in making herself felt as the loveliest town in Northwest Missouri, anyway, and there is no reason on earth why she can't come up to Carthage, Mo., known as "the cleanest town on earth." With the soil there is here, the abundance of water and the intelligent use of energy of her citizens in cultivating and bringing out all its possibilities in the way of beautiful, attractive lawns, flower and vegetable gardens, Maryville should be known as "the loveliest spot on earth."

Let us not wait for a day set aside by proclamation to come around before we make a move toward realizing that "loveliest spot on earth." But let us plan everything right now about our premises, and when the rains are over and the sun dries everything up nice, let us go forth and make things fly for ourselves. Then when the mayor's proclamation comes, with an altogether heave on the agreed day Maryville's face will not only be clean, but her whole body, from corporation line to corporation line, will revel in the delight of a sweet, wholesome bath, every evidence of dirt or grime or rubbish gone, and good, green things (not weeds) growing in their place.

Boys and girls, let's do it. It can't be done without your help.

Remember Tin Can day? All those cans would never in the world have been gathered together without you.

Now, let us see how many things we can do to make Maryville beautiful.

Begin on the ash pile first. When the sun comes out and while the ashes are yet wet from these rains they can't fly over everything then, carry them off some place away from the yard.

Then get your spade and work up the soil ten or eleven inches deep, taking care to turn the soil completely over so that the weeds on the surface are buried.

Buy from a livery stable a load of well rotted manure and mix it with the soil, taking care to put a good supply on gravelly places and places where ashes are mixed with the soil.

Buy a few tools, a five-pronged fork, a rake, a hoe, and make a short digger out of a shovel handle. This is used for working the soil closely. A string is handy to lay out the rows straight. The lawn sprinkler will serve to water the garden.

Good seed are so important that it is best to get them from a reputable merchant. There you will be assured of getting seed true to name and type, and of selected stock. Through the summer this will give the same interest one finds in raising pure-bred stock.

A list of vegetables best suited to a back-yard garden, with the best varieties of each, should be divided according to hardiness and time of planting, into cool season and warm season vegetables. Cool vegetables should be planted from April 15. The kinds suited to a back-yard garden are:

Onions from seed—thin for green onions, leaving the rest for dry use.

Cabbage—Succession is an early kind suited to dry weather. Flat Dutch is late.

Radishes—French Breakfast and scarlet Globe.

Beets—The Detroit Red and Crosly's Egyptian.

Peas—American Wonder, that is early and does not need supporting. Telephone, which must be supported.

Parsnips—Hollow Crown.

Parsley—Moss Leafed.

Spinach—New Zealand.

Warm season vegetables should be planted May 1 to 15. They are harder to grow than the cold season kind and are susceptible to insect pests and disease. The only ones suitable to the back-yard garden are:

Tomatoes—Ponderosa, Earliana and Chalk's Jewel.

Cucumbers—White Spine.

Peppers—Chinese Giant, Bull Nose.

The young tomato plants should be supported at first with stakes.

Such vegetables as tomatoes and cabbage can be bought in the form of young plants from a greenhouse or someone having a hotbed at little expense. Thus the trouble of starting is avoided.

Follow the instructions written on the packages in planting. While the plants are growing keep them clean from weeds. Weeds spoil the fun of gardening quicker than anything else. Water in the mornings, heavily rather than often. Once a week is often enough in dry weather if plenty is put on at a time. Use the hoe to keep the earth from getting hard. Straw in the manure helps to keep the sun from baking the soil.

After the plants grow to a considerable size and are thinned they should be re-fertilized. It is important that right fertilizer be used. Leaf plants such as cabbage and spinach require nitrogen. Mix in the soil, not too near the plants, one or two teaspoonfuls of sodium nitrate. Fruit and root plants such as tomatoes and beets require potash. Apply potash to them in the same way. You will not then be troubled by your plants going to foliage.

If the weeds are kept down, the soil kept loose and the plants watered, there is no reason why any man cannot have a garden of his own, and fresh, home-grown vegetables on his place.

The boys of the high school are beginning to make preparations to take part in the track meet which will be held at the State Normal, April 25. They have not yet had much practice, but they are making a very good showing in what little they have done.

HEIMBURG BURIED

THE BODY OF "DUTCH CHARLIE" IN MIRIAM CEMETERY.

UNABLE TO IDENTIFY

Wm. Heimburg of Fargo, N. D., Could Not Tell Whether He Was His Brother.

The body of "Dutch Charlie" Heimburg was buried in Miriam cemetery Tuesday morning at 9.30 o'clock. This plan was decided on by Coroner Wallis, John Price and William Heimburg Monday evening. The body has laid at the undertaking parlors of Price & McNeal for ten days.

William Heimburg lives at Fargo, N. D., and is a bookkeeper in the office of the Independent Telephone company. He is 38 years old and is a quiet, unassuming and nice appearing man.

Mr. Heimburg was unable to identify the dead man as his brother because he has not seen him in twenty years, and there were no marks to identify him by. He stated that the last time he saw his brother was in 1894, a short time after his mother died, and that his brother was home only a short time. He said that as near as he could remember his brother was away from home most of the time.

If at any future time Mr. Heimburg finds evidence that this dead man is positively his brother he will have his body moved to Sedalia and buried beside that of his father and mother.

YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by **Pearson's Pharmacy and druggists everywhere.**

VOLUME 4. MARYVILLE, MISSOURI, TUESDAY, APRIL 7, 1914. NO. 264.

A CLEAN-UP DAY

MARYVILLE RIGHT IN LINE OF ANNUAL CLEAN-UP.

START IT RIGHT NOW

Let Us See How Many Things We Can Do to Make This the Cleanest Town in the State.

While these cold April showers prevail and the grass is getting greener and greener and making us wish for the warm, brigh tsun, and incidentally the spade, the rake, and the hoe and some seeds, is a good time to study out how to make yards and gardens attractive and beautiful, and drive away everything that is unsightly, or is bad for health.

Nearly every paper published in Missouri these days has some plan up for the annual spring clean-up day, and Maryville will be right in line, of course, to do her part in making herself felt as the loveliest town in Northwest Missouri, anyway, and there is no reason on earth why she can't come up to Carthage, Mo., known as "the cleanest town on earth." With the soil there is here, the abundance of water and the intelligent use of energy of her citizens in cultivating and bringing out all its possibilities in the way of beautiful, attractive lawns, flower and vegetable gardens, Maryville should be known as "the loveliest spot on earth."

Let us not wait for a day set aside by proclamation to come around before we make a move toward realizing that "loveliest spot on earth." But let us plan everything right now about our premises, and when the rains are over and the sun dries everything up nice, let us go forth and make things fly for ourselves. Then when the mayor's proclamation comes, with an altogether heave on the agreed day Maryville's face will not only be clean, but her whole body, from corporation line to corporation line, will revel in the delight of a sweet, wholesome bath, every evidence of dirt or grime or rubbish gone, and good, green things (not weeds) growing in their place.

Boys and girls, let's do it. It can't be done without your help.

Remember Tin Can day? All those cans would never in the world have been gathered together without you.

Now, let us see how many things we can do to make Maryville beautiful.

Begin on the ash pile first. When the sun comes out and while the ashes are yet wet from these rains they can't fly over everything then, carry them off some place away from the yard.

Then get your spade and work up the soil ten or eleven inches deep, taking care to turn the soil completely over so that the weeds on the surface are buried.

Buy from a livery stable a load of well rotted manure and mix it with the soil, taking care to put a good supply on gravelly places and places where ashes are mixed with the soil.

Buy a few tools, a five-pronged fork, a rake, a hoe, and make a short digger out of a shovel handle. This is used for working the soil closely. A string is handy to lay out the rows straight. The lawn sprinkler will serve to water the garden.

Good seed are so important that it is best to get them from a reputable merchant. There you will be assured of getting seed true to name and type, and of selected stock. Through the summer this will give the same interest one finds in raising pure-bred stock.

A list of vegetables best suited to a back-yard garden, with the best varieties of each, should be divided according to hardiness and time of planting, into cool season and warm season vegetables. Cool vegetables should be planted from April 15. The kinds suited to a back-yard garden are:

Onions from seed—thin for green onions, leaving the rest for dry use.

Cabbage—Succession is an early kind suited to dry weather. Flat Dutch is late.

Radishes—French Breakfast and scarlet Globe.

Beets—The Detroit Red and Crosly's Egyptian.

Peas—American Wonder, that is early and does not need supporting. Telephone, which must be supported.

Parsnips—Hollow Crown.

Parsley—Moss Leafed.

Spinach—New Zealand.

Warm season vegetables should be planted May 1 to 15. They are harder to grow than the cold season kind and are susceptible to insect pests and disease. The only ones suitable to the back-yard garden are:

Tomatoes—Ponderosa, Earliana and Chalk's Jewel.

Cucumbers—White Spine.

Peppers—Chinese Giant, Bull Nose. The young tomato plants should be supported at first with stakes.

Such vegetables as tomatoes and cabbage can be bought in the form of young plants from a greenhouse or someone having a hotbed at little expense. Thus the trouble of starting is avoided.

Follow the instructions written on the packages in planting. While the plants are growing keep them clean from weeds. Weeds spoil the fun of gardening quicker than anything else. Water in the mornings, heavily rather than often. Once a week is often enough in dry weather if plenty is put on at a time. Use the hoe to keep the earth from getting hard. Straw in the manure helps to keep the sun from baking the soil.

After the plants grow to a considerable size and are thinned they should be re-fertilized. It is important that right fertilizer be used. Leaf plants such as cabbage and spinach require nitrogen. Mix in the soil, not too near the plants, one or two teaspoonfuls of sodium nitrate. Fruit and root plants such as tomatoes and beets require potash. Apply potash to them in the same way. You will not then be troubled by your plants going to foliage.

If the weeds are kept down, the soil kept loose and the plants watered, there is no reason why any man cannot have a garden of his own, and fresh, home-grown vegetables on his place.

HEIMBURG BURIED

THE BODY OF "DUTCH CHARLIE" IN MIRIAM CEMETERY.

UNABLE TO IDENTIFY

Wm. Heimburg of Fargo, N. D., Could Not Tell Whether He Was His Brother.

The body of "Dutch Charlie" Heimburg was buried in Miriam cemetery Tuesday morning at 9.30 o'clock. This plan was decided on by Coroner Wallis, John Price and William Heimburg Monday evening. The body has laid at the undertaking parlors of Price & McNeal for ten days.

William Heimburg lives at Fargo, N. D., and is a bookkeeper in the office of the Independent Telephone company. He is 38 years old and is a quiet, unassuming and nice appearing man.

Mr. Heimburg was unable to identify the dead man as his brother because he has not seen him in twenty years, and there were no marks to identify him by. He stated that the last time he saw his brother was in 1894, a short time after his mother died, and that his brother was home only a short time. He said that as near as he could remember his brother was away from home most of the time.

If at any future time Mr. Heimburg finds evidence that this dead man is positively his brother he will have his body moved to Sedalia and buried beside that of his father and mother.

YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Pearson's Pharmacy and druggists everywhere.

A Shine In Every Drop!

Black Silk Stove Polish is *different*. It does not dry out; can be used to the last drop; liquid and paste one quality; absolutely no waste; no dust or dirt. You get your money's worth.

Black Silk Stove Polish

is not only most economical, but it gives a brilliant, silky lustre that cannot be obtained with any other polish. Black Silk Stove Polish does not rub off—it lasts four times as long as ordinary polish—so it saves you time, work and money.

Don't forget—when you want stove polish be sure to ask for Black Silk. If it isn't the best stove polish you ever used—your dealer will refund your money.

Black Silk Stove Polish Works, Sterling, Illinois.

Use Black Silk Air Drying Iron Enamel on grates, registers, stove pipes, and automobile fire rims. Prevents rusting. Try it.

Use Black Silk Metal Polish for silverware, nickel, tinware, or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.
